Job description

What we're looking for

We're looking for talented and experienced front-end software developers to join our growing team and help us bring the cutting edge of technology to the hands of those charged with educating our youth. These roles would be mainly front-end centric and would include adding new features to our current platform and improvements to our existing features using React JS. We're looking for developers who love building products and who have significant experience in building front-end dashboards using React JS. If you think you fit the bill, we'd love to chat with you!

Responsibilities

1. Building a financial management dashboard targeted to public schools in the United States to help school leaders make better decisions.
2. This role would be mainly front-end centric.
3. Roles would include adding new features to our current dashboard or bug fixes and improvements to our existing features using React JS.
4. Looking for developers who love building products and who have significant experience in building front-end dashboards using React JS.
5. Compensation would be between 6-16LPA depending on your previous CTC and how well you would fit into our company.

Perks and Benefits

Joining the Edstruments team means being part of a start-up culture that invests in your development as an individual when thinking about your work with our company. Our culture promotes integrity, two-way feedback loops, honesty, and empathy. Our philosophy is that if you're happy with the work you're doing, you'll do it well. We strive to create that environment and ultimately give you the autonomy to work the way that fits your life. This means you get:

- Full-time remote work opportunity
- Flexible Hours
- Ability to engage with interdisciplinary teams to achieve goals

Role	Software Developer
Industry Type	IT-Software, Software Services
Functional Area	IT Software - Application Programming, Maintenance
Employment Type	Full Time, Permanent
Role Category	Programming & Design

Education

UG : Any Graduate in Any Specialization

Key Skills

- ☆ Front End

Edstruments is a K-12 education finance start-up whose mission is to optimize the way dollars are spent in the public education system. Our objective is to design robust and user-friendly software for budget owners that increases strategic decision-making and best practices within an organization. Our vision is a public education system that innovates quickly and optimizes spending around student outcomes.

Our team consists of former educators, businesspeople, and technologists united around building solutions for the operational inefficiencies faced by district and school leaders across the U.S. Our founder is a Forbes 30 Under 30 Stanford MBA and ex-McKinsey consultant and our Chief Technology Officer has built and exited a start-up before joining Edstruments.
